

Hello, My name is Sarah Hiramatsu, I have been a Flight Attendant for America west for 7 years and am concerned about the Notice of Proposed Rule Making that would relax restrictions on cell phone use during flight. Below are a few of my many concerns.

1. There is no hard evidence that cell phone use doesn't interfere with navigational instruments.
2. Cell phone use would enable terrorists to coordinate a plan of action more effectively.
3. The NPRM would leave it up to flight attendants to police the use of cell phones onboard the aircraft compromising our ability to maintain a safe, secure cabin environment and to conduct emergency evacuations.
4. It would make an already tense cabin environment even more stressful.

Thank you for your time.
Sarah Hiramatsu
